

VW Touareg 2003- 70170

This Dash Mount is designed for:

VW Touareg 2003- Drivers airbag

Location:

Right side of radiounit

Tools Required:

Torx-20 screwdriver, Radio removal tools

Monteringsanvisning

Steg 1: Løsne radioens festeanordning med 4 radio-nøkler. Trekk så radioen ut. Det skal ikke være nødvendig å løsne ledninger.

Steg 2: Skru ut 6 eller de 8 Torx-20 skruene som holder aluminiumsrammen. Trekk så rammen ut i nedre kant og før DashMountens arm inn bak rammen. Plassering er best på nedre skruer, men DashMounten vil passe på alle skruene på høyre side.

Steg 3: Skyv så rammen inn igjen og sett i skruene.

Steg 4: Skyv inn radioen igjen.

Mounting Instruction

Step 1: Unlock the radio with 4 radiokeys. Pull the radio out. Harness does not need to be disconnected.

Step 2: Unscrew the 6-8 Torx-screws securing the aluminium frame. Tilt the frame out at bottom and located the arm of the DashMount behind it. The hole will align with all the screws on right side, but we recommend using the lower one.

Step 3: Push the frame back into position and install the screws.

Step 4: Refit the Radio.

Dato / Date: 21.02.2003

Correct direction of the rose pattern.

Do not use force when working with plastic components. Use extreme care not to scratch the interior of the vehicle. MTU may not be held liable for any damage to a vehicle connected to the installation.
