

Technical Description:

	Min	Max
Operating Input voltage*	12 Vdc	
Max Input voltage	18 V	
Max current consumption	40 mA	
Max Mute In consumption	3 mA	
Remote Out max current	50 mA	
THD for Hands Free Kit function	<0.05%	
Attenuation for Hands Free Kit input signal	40%	100%
Polarity reversal protection	YES	
Operating Temperature	-20°C ÷ +85°C	
Dimensions	75x55x25 mm	
Weight	100g	
Certifications	E24(NSAI) approved according to R10-04	

* The circuit has always to be connected to the Key signal (Underkey)

Switch On / Off spk.

DIP 1: Front Right
DIP 2: Rear Right
DIP 3: Front Left
DIP 4: Rear Left

Volume Control

SX: Left channel Front/Rear
DX: Right channel Front/Rear

10R-030492

RoHS

Kram Telecom A/S will reserve to make technical changes to the device without notice.

All installation work must be performed by a qualified professional installer only.

The manufacturer / dealer is not liable for any kind of incidental or indirect damages.
